[www.imc.edu.my](http://www.imc.edu.my)

## About the Programme

The **6-months Full Time programme** is designed for registered nurses who wish to advance their career further into Paediatric Nursing. The programme prepares the student to provide care for children with ailments and how to support their family in this trying time.

**This programme aims to:**

- Apply current knowledge and clinical skills in paediatric nursing in line with current healthcare requirement.
- Communicate effectively with the community and healthcare professional using critical thinking skill.
- Demonstrate quality and caring leadership whilst practices ethical and professional values in providing services to the clients, family and community.
- Assume professional nursing responsibility by utilising research findings as one of the lifelong learning measures.

# Why Study Post Basic in Paediatric Nursing at IMC?

The programme is designed to enable the students to further develop their assessment skills and critical thinking skills in their application of nursing process to patients in a specialised environment.

It is a well-thought-out programme that is taught and supervised by well qualified, experienced teaching staff who have practising experiences in Paediatric nursing.

Students are inculcated with nursing values and ethics, besides improving their knowledge and skills in their management of patients at the clinical settings.

With a variety of clinical sites exposure, the students will gain the necessary required skills to be competent Paediatric Nurses.
